## 5-year functional & quality warranty

We provide a five-year warranty with respect to the functional security and the manufacturing quality of all our kitchen products. The warranty begins on the day of the retailer's receipt. The terms for this warranty are proper use and proper care of the fitted kitchen.

The following are excluded from our warranty:

All parts not produced by us, such as electrical parts, waste bins, universal slicers, etc. The guarantee terms of the producers of these units apply.

Damage due to heat absorption in the field of electric and gas appliances or through water seepage or steam, caused by cuts, knocks or the usual paint abrasion in intensively used areas are not included in the warranty.

Damage caused by improper fitting or planning (furniture and appliances).

The warranty does not cover changes to the colour of veneered or solid wood, which is caused by natural physical influences.

The warranty is only implemented by additional improvements, either in the form of repairs or replacement of the faulty parts with original or comparable replacements, as the manufacturer this fit. It includes free repair or replacement delivery, whereby fitting and travel expenses for the delivery of subsequent fittings are not included in the warranty.

Further claims, especially on the basis of positive breach of contract or for compensation for damage caused by deficiencies are excluded. Should any fault arise, the consumer must make his warranty claim within 10 days and address it towards the retailer who supplied the kitchen.

Exchanges or repairs do not extend the warranty.

**Client agrees to maintain a closed protected humidity and temperature controlled environment for all cabinetry materials. Failure to maintain this environment can have an adverse effect on the cabinetry integrity causing warping, expansion, de-lamination, and voiding the warranty.**
