WARDROBES & DRESSING ROOMS

HOME LIVING

Finish & Style Collection

Made-to-measure furniture for every room of the home.

Wardrobes · Walk-in closets · Media walls · Sideboards · Shelving · Built-in cabinetry · Sliding doors

Edition October 2026 · presented by eggersmann USA

DESIGN. HANDMADE IN GERMANY.

From its workshop in Gummersbach, Germany, Schmalenbach builds furniture for every room of the home: wardrobes and walk-in closets, media walls and sideboards, shelving and display cabinets, home offices and built-in cabinetry, and sliding door systems that divide a room. Every piece is made to measure as an individual commission – sized to your room in height, width and depth, with continuous heights of up to 3.75 metres.

The same material palette runs through every piece, from hard-wearing melamine and silky matt lacquer to fine veneers, glass, metal and eco leather. A dressing room, a living-room media wall and a study can share one finish – or each can take on a character of its own.

eggersmann USA brings Schmalenbach to our showrooms across the United States, where our design teams plan each interior alongside your eggersmann kitchen and living spaces.
